1 Introduction

Firmware release **6.2.0** is a minor release that incorporates a number of improvements and bug fixes.

2 New features

None.

3 Improvements

Implemented autodetect of Giro-E functionality for NFC readers so new revisions no longer have to be implemented manually.

Fixed an issue where the P1 power values were not parsed correctly.

4 Back-end communication changes

No changes

5 Errorcode changes

No changes

6 Minor changes

No changes

7 Roll-out heads up

Nothing to mention

8 Revision control

Date	Version	Description / status
2023-Mar-17	2.0	Initial version
